INDIVIDUAL SESSIONS & GROUP EVENTS TO EMPOWER & INSPIRE YOU

Individual sessions are available by appointment and can be conducted via telephone, or in person at the Inner Compass office in Cincinnati, Ohio.

Group events can be conducted at the client's location or at the Inner Compass office.

INTUITIVE LIFE COACHING

The purpose of life coaching is to help the client to produce fulfilling outcomes in their personal and spiritual life. Coaching is typically goal-based and proactive. Over a series of sessions, I help the client to clarify their intentions, make appropriate choices, and take effective actions, while I support the client in enhancing their inherent skills, resources, and creativity. My approach to life coaching is based on universal principles of intention, attraction, and action, and encompasses a holistic perspective. I work with the client intuitively to create changes in their energetic patterns on multiple levels—physically, emotionally, mentally, and spiritually—to help them manifest their desired outcomes.

INTUITIVE MEDIUMSHIP READINGS

The purpose of a mediumship reading is to communicate to the client loving, healing, and guiding messages from loved ones in spirit. I use my intuitive and clairvoyant mediumship abilities to receive this spiritual communication, which is always intended for the client's personal empowerment and inspiration. A reading may touch on more than one area of the client's life, such as personal growth, spiritual direction, relationships with significant others, family situations, occupations, or health, yet many readings tend to focus on a core issue. Spirit loved ones are identified as their energetic presences are sensed; these are often relatives or friends who have passed into spirit, and occasionally, spiritual guides who are working with the individual's higher self.

GROUP COACHING & DEVELOPMENT CIRCLES

Small group coaching and development circles are available at Inner Compass in a variety of personal development areas, such as meditation, mediumship, life coaching, creativity, and manifestation.

Groups are limited in size to ensure individual attention, and coaching and development take place on an ongoing basis. Some participants prefer small group coaching because it is somewhat informal, others because it is highly experiential, and still others because it is very affordable. Yet everyone agrees that this development format facilitates substantial and meaningful progress.

READING PARTIES & MESSAGE CIRCLES

Reading parties and message circles are popular with groups and those who are new to intuitive mediumship readings. They are fun and affordable, and allow one's friends and family members to participate. They can take place at the home of a host participant or at the Inner Compass office. A *Reading Party* typically includes from four to eight participants. I conduct a private reading for each participant in turn, and the participants socialize among themselves while it is someone else's turn. A *Message Circle* typically includes from four to eight participants. All of the participants sit in a circle together, and I provide a message, or mini-reading, for each participant in turn.

SEMINARS, WORKSHOPS & LECTURES

Inner Compass offers a variety of seminars, workshops, lectures, and special events. I am passionate about teaching and I enjoy working with groups. The courses that I have developed teach many of the metaphysical concepts and practices that I apply in individual sessions with clients, and in my own life. General course topics of instruction include meditation; creativity and inspiration; life purpose; personal and spiritual development; intuition and mediumship; and creative manifestation. Classes can be customized to accommodate the special needs of organizations, and are structured to help participants retain the knowledge and skills that they learn so that they can apply them successfully to their real-life situations. Inner Compass also offers courses and events that feature guest instructors. I am excited to bring these people to our community because I find their teachings personally helpful.
